## ALLIANCE ASSOCIATES

**ALLIANCE ASSOCIATES** is well known for its leather safety products specializing in Leather Gloves, which have been well accepted by our different customers globally. The company has been manufacturing Industrial leather gloves and other leather safety products and exporting to various countries all over the world.

ALLIANCE ASSOCIATES's technical competence enables us to produce global quality Safety gloves, leather products & industrial garments. Entire manufacturing is done with inputs from manualised and documented technology. All critical process viz. raw material selection, tanning, measuring of leather, cutting, stitching, ironing, foaming and packing are preciously laid out and controlled.

Our asset is our team of dedicated and competent professionals and a sound infrastructure, which enables us to handle production, finishing, and packaging of our product. Our upbeat team is in touch with the latest trends in leather products towards producing an innovative product range. We are committed to provide continuous improvement of process and technology to meet or exceed customer requirements. As a growing organization, our aim is to develop and empower our team of staff to achieve higher individual and a complete team work.

We pledge excellent quality, competitive prices and timely delivery. Our wide spectrum of industrial leather gloves and apparel are manufactured using quality raw material. The leather used to fabricate the gloves is produced in our in-house tannery that ensures the quality and durability of the material. Our gamut like split leather welding gloves, lined leather welding gloves, heavy leather welding gloves, etc., can be broadly classified into five categories comprising Driving Gloves, Canadian Gloves, Welding Gloves.
